

# TEST 4

Speaking module (1-14 minutes)

## Listening module (approx 30 minutes + 10 minutes transfer time)

### SECTION 1

#### Questions 1–10

Complete the notes below.

Write **ONE WORD AND/OR A NUMBER** for each answer.

#### Things to do before we go

Example

- Collect the currency.
- Cancel appointment with the **1** ..... (Monday)
- Begin taking the **2** ..... (Tuesday)
- Buy  
**3** ..... ,  
a small bag,  
a spare **4** ..... ,  
an electrical **5** .....
- Book a **6** .....

Instructions for Laura's mum

- Feed the cat

Vet's details:

Name: Colin **7** .....

Tel: **8** .....

Address: Fore Street (opposite the **9** .....

- Water the plants
- Meet the heating engineer on **10** .....

**Questions 11–20***Questions 11–16*

Choose the correct answer, **A**, **B** or **C**.

**Adbourne Film Festival**

- 11** Why was the Film Festival started?
- A** To encourage local people to make films.
  - B** To bring more tourists to the town.
  - C** To use money released from another project.
- 12** What is the price range for tickets?
- A** £1.00 – £2.50
  - B** 50p – £2.00
  - C** £1.50 – £2.50
- 13** As well as online, tickets for the films can be obtained
- A** from the local library.
  - B** from several different shops.
  - C** from the two festival cinemas.
- 14** Last year's winning film was about
- A** farms of the future.
  - B** schools and the environment.
  - C** green transport options.
- 15** This year the competition prize is
- A** a stay in a hotel.
  - B** film-making equipment.
  - C** a sum of money.
- 16** The deadline for entering a film in the competition is the end of
- A** May.
  - B** June.
  - C** July.

**Questions 17–20**

Questions 17–18

Choose **TWO** letters, **A–E**.

What **TWO** main criteria are used to judge the film competition?

- A** Ability to persuade.
- B** Quality of the story.
- C** Memorable characters.
- D** Quality of photography.
- E** Originality.

Questions 19–20

Choose **TWO** letters, **A–E**.

What **TWO** changes will be made to the competition next year?

- A** A new way of judging.
- B** A different length of film.
- C** An additional age category.
- D** Different performance times.
- E** New locations for performances.

**Questions 21–30***Questions 21–24*

Choose the correct letter, **A**, **B** or **C**.

**Research on web-based crosswords**

- 21** Leela and Jake chose this article because
- A** it was on a topic familiar to most students.
  - B** it covered both IT and education issues.
  - C** it dealt with a very straightforward concept.
- 22** How did Leela and Jake persuade students to take part in their research?
- A** They convinced them they would enjoy the experience.
  - B** They said it would help them do a particular test.
  - C** They offered to help them with their own research later on.
- 23** Leela and Jake changed the design of the original questionnaire because
- A** it was too short for their purposes.
  - B** it asked misleading questions.
  - C** it contained out-of-date points.
- 24** Leela was surprised by the fact that
- A** it is normal for questionnaire returns to be low.
  - B** so many students sent back their questionnaires.
  - C** the questionnaire responses were of such high quality.

### Questions 25–30

Questions 25–26

Choose **TWO** letters, **A–E**.

What **TWO** things did respondents say they liked most about doing the crossword?

- A It helped them spell complex technical terms.
- B It was an enjoyable experience.
- C It helped them concentrate effectively.
- D It increased their general motivation to study.
- E It showed what they still needed to study.

Questions 27–28

Choose **TWO** letters, **A–E**.

In which **TWO** areas did these research findings differ from those of the original study?

- A Students' interest in doing similar exercises.
- B How much students liked doing the crossword.
- C Time taken to do the crossword.
- D Gender differences in appreciation.
- E Opinions about using crosswords for formal assessment.

Questions 29–30

Choose **TWO** letters, **A–E**.

What **TWO** skills did Leela and Jake agree they had learned from doing the project?

- A How to manage their time effectively.
- B How to process numerical data.
- C How to design research tools.
- D How to reference other people's work.
- E How to collaborate in research.

**Questions 31–40**

Complete the sentences below.

Write **NO MORE THAN TWO WORDS** for each answer.

**Job satisfaction study**

- 31 Workers involved in the study were employed at a .....
- 32 Despite some apparent differences between groups of workers, the survey results were statistically .....
- 33 The speaker analysed the study's ..... to identify any problems with it.
- 34 The various sub-groups were ..... in size.
- 35 Workers in the part-time group were mainly .....
- 36 The ..... of workers who agreed to take part in the study was disappointing.
- 37 Researchers were unable to ..... the circumstances in which workers filled out the questionnaire.
- 38 In future, the overall size of the ..... should be increased.
- 39 In future studies, workers should be prevented from having discussions with .....
- 40 Workers should be reassured that their responses to questions are .....

## Reading module (1 hour)

### READING PASSAGE 1

You should spend about 20 minutes on **Questions 1–13**, which are based on Reading Passage 1 below.

# Geoff Brash

Geoff Brash, who died in 2010, was a gregarious Australian businessman and philanthropist who encouraged the young to reach their potential.

Born in Melbourne to Elsa and Alfred Brash, he was educated at Scotch College. His sister, Barbara, became a renowned artist and printmaker. His father, Alfred, ran the Brash retail music business that had been founded in 1862 by his grandfather, the German immigrant Marcus Brasch, specialising in pianos. It carried the slogan 'A home is not a home without a piano.'

In his young days, Brash enjoyed the good life, playing golf and sailing, and spending some months travelling through Europe, having a leisurely holiday. He worked for a time at Myer department stores before joining the family business in 1949, where he quickly began to put his stamp on things. In one of his first management decisions, he diverged from his father's sense of frugal aesthetics by re-carpeting the old man's office while he was away. After initially complaining of his extravagance, his father grew to accept the change and gave his son increasing responsibility in the business.

After World War II (1939–1945), Brash's had begun to focus on white goods, such as washing machines and refrigerators, as the consumer boom took hold. However, while his father was content with the business he had built, the younger Brash viewed expansion as vital. When Geoff Brash took over as managing director in 1957, the company had two stores, but after floating it on the stock exchange the following year, he expanded rapidly and opened suburban stores, as well as buying into familiar music industry names such as Allans, Palings and Suttons. Eventually, 170 stores traded across the continent under the Brash's banner.

Geoff Brash learned from his father's focus on customer service. Alfred Brash had also been a pioneer in introducing a share scheme for his staff, and his son retained and expanded the plan following the float.

Geoff Brash was optimistic and outward looking. As a result, he was a pioneer in both accessing and selling new technology, and developing overseas relationships. He sourced and sold electric guitars, organs, and a range of other modern instruments, as well as state-of-the-art audio and video equipment. He developed a relationship with Taro Kakehashi, the founder of Japan's Roland group, which led to a joint venture that brought electronic musical devices to Australia.

In 1965, Brash and his wife attended a trade fair in Guangzhou, the first of its kind in China; they were one of the first Western business people allowed into the country following Mao Zedong's Cultural Revolution. He returned there many times, helping advise the Chinese in establishing a high quality piano factory in Beijing; he became the factory's agent in Australia. Brash also took leading jazz musicians Don Burrows and James Morrison to China, on a trip that reintroduced jazz to many Chinese musicians.

He stood down as Executive Chairman of Brash's in 1988, but under the new management debt became a problem, and in 1994 the banks called in administrators. The company was sold to Singaporean interests and continued to trade until 1998, when it again went into administration. The Brash name then disappeared from the retail world. Brash was greatly disappointed by the collapse and the eventual disappearance of the company he had run for so long. But it was not long before he invested in a restructured Allan's music business.

Brash was a committed philanthropist who, in the mid-1980s, established the Brash Foundation, which eventually morphed, with other partners, into the Soundhouse Music Alliance. This was a not-for-profit organisation overseeing and promoting multimedia music making and education for teachers and students. The Soundhouse offers teachers and young people the opportunity to get exposure to the latest music technology, and to use this to compose and record their own music, either alone or in collaboration. The organisation has now also established branches in New Zealand, South Africa and Ireland, as well as numerous sites around Australia.

## Questions 1–13

### Questions 1–5

Do the following statements agree with the information given in Reading Passage 1?

Write

**TRUE** if the statement agrees with the information  
**FALSE** if the statement contradicts the information  
**NOT GIVEN** if there is no information on this

- 1 The Brash business originally sold pianos.
- 2 Geoff Brash's first job was with his grandfather's company.
- 3 Alfred Brash thought that his son wasted money.
- 4 By the time Geoff Brash took control, the Brash business was selling some electrical products.
- 5 Geoff Brash had ambitions to open Brash stores in other countries.

### Questions 6–10

Answer the questions below.

Choose **NO MORE THAN THREE WORDS OR A NUMBER** from the passage for each answer.

- 6 Which arrangement did Alfred Brash set up for his employees?
- 7 Which Japanese company did Geoff Brash collaborate with?
- 8 What type of event in China marked the beginning of Geoff Brash's relationship with that country?
- 9 What style of music did Geoff Brash help to promote in China?
- 10 When did the Brash company finally stop doing business?

Questions 11–13

Complete the notes below.

Choose **ONE WORD ONLY** from the passage for each answer.

**Soundhouse Music Alliance**

- Grew out of the Brash Foundation.
- A non-commercial organisation providing support for music and music **11** .....
- Allows opportunities for using up-to-date **12** .....
- Has **13** ..... in several countries.

**READING  
PASSAGE 2**

You should spend about 20 minutes on **Questions 14–26**, which are based on Reading Passage 2 below.

**Questions 14–26**

Questions 14–19

Reading Passage 2 has **SIX** paragraphs, **A–F**.

Choose the correct heading, **A–F**, from the list of headings below.

Write the correct number, **i–ix**.

**List of Headings**

- i** A mixture of languages and nationalities
- ii** The creation of an exclusive identity
- iii** The duties involved in various occupations
- iv** An unprecedented population density
- v** Imports and exports transported by river
- vi** Transporting heavy loads manually
- vii** Temporary work for large numbers of people
- viii** Hazards associated with riverside work
- ix** The changing status of riverside occupations

- 14** Paragraph **A** .....
- 15** Paragraph **B** .....
- 16** Paragraph **C** .....
- 17** Paragraph **D** .....
- 18** Paragraph **E** .....
- 19** Paragraph **F** .....

## Early occupations around the river Thames

- A** In her pioneering survey, *Sources of London English*, Laura Wright has listed the variety of medieval workers who took their livings from the river Thames. The *baillies* of Queenhithe and Billingsgate acted as customs officers. There were *conservators*, who were responsible for maintaining the embankments and the weirs, and there were the *garthmen* who worked in the fish garths (enclosures). Then there were *galley*men and *lightermen* and *shoutmen*, called after the names of their boats, and there were *hookers* who were named after the manner in which they caught their fish. The *searcher* patrolled the Thames in search of illegal fish weirs, and the *tideman* worked on its banks and foreshores whenever the tide permitted him to do so.
- B** All of these occupations persisted for many centuries, as did those jobs that depended upon the trade of the river. Yet, it was not easy work for any of the workers. They carried most goods upon their backs, since the rough surfaces of the quays and nearby streets were not suitable for wagons or large carts; the merchandise characteristically arrived in barrels which could be rolled from the ship along each quay. If the burden was too great to be carried by a single man, then the goods were slung on poles resting on the shoulders of two men. It was a slow and expensive method of business.
- C** However, up to the eighteenth century, river work was seen in a generally favourable light. For Langland, writing in the fourteenth century, the labourers working on river merchandise were relatively prosperous. And the porters of the seventeenth and early eighteenth centuries were, if anything, aristocrats of labour, enjoying high status. However, in the years from the late eighteenth to the early nineteenth century, there was a marked change in attitude. This was in part because the working river was within the region of the East End of London, which in this period acquired an unenviable reputation. By now, dockside labour was considered to be the most disreputable, and certainly the least desirable form of work.
- D** It could be said that the first industrial community in England grew up around the Thames. With the host of river workers themselves, as well as the vast assembly of ancillary trades such as tavern-keepers and laundresses, food-sellers and street-hawkers, shopkeepers and marine store dealers – there was a workforce of many thousands congregated in a relatively small area. There were more varieties of business to be observed by the riverside than in any other part of the city. As a result, with the possible exception of the area known as Seven Dials, the East End was also the most intensively inhabited region of London.
- E** It was a world apart, with its own language and its own laws. From the sailors in the opium dens of Limehouse to the smugglers on the malarial flats of the estuary, the workers of the river were not part of any civilised society. The alien world of the river had entered them. That alienation was also expressed in the slang of the docks, which essentially amounted to backslang, or the reversal of ordinary words. This backslang also helped in the formulation of Cockney rhyming slang\*, so that the vocabulary of Londoners was directly affected by the life of the Thames.

**F** The reports in the nineteenth-century press reveal a heterogeneous world of dock labour, in which the crowds of casuals waiting for work at the dock gates at 7.45 a.m. include penniless refugees, bankrupts, old soldiers, broken-down gentlemen, discharged servants, and ex-convicts. There were some 400-500 permanent workers who earned a regular wage and who were considered to be the patricians of dockside labour. However, there were some 2,500 casual workers who were hired by the shift. The work for which they competed fiercely had become ever more unpleasant. Steam power could not be used for the cranes, for example, because of the danger of fire. So the cranes were powered by treadmills. Six to eight men entered a wooden cylinder and, laying hold of ropes, would tread the wheel round. They could lift nearly 20 tonnes to an average height of 27 feet (8.2 metres), forty times in an hour. This was part of the life of the river unknown to those who were intent upon its more picturesque aspects.

---

\* a collection of phrases, based on rhyme, used by people in parts of central London as alternatives to standard English words.

Questions 20–21

Choose **TWO** letters, **A–E**.

Write the correct letters.

Which **TWO** statements are made about work by the River Thames before the eighteenth century?

- A Goods were transported from the river by cart.
- B The workforce was very poorly paid.
- C Occupations were specialised.
- D Workers were generally looked down upon.
- E Physical strength was required.

Questions 22–23

Choose **TWO** letters, **A–E**.

Write the correct letters.

Which **TWO** statements are made about life by the River Thames in the early nineteenth century?

- A The area was very crowded.
- B There was an absence of crime.
- C Casual work was in great demand.
- D Several different languages were in use.
- E Inhabitants were known for their friendliness.

Questions 24–26

Complete the sentences below.

Use **NO MORE THAN TWO WORDS** from the passage for each answer.

- 24 In the nineteenth century, only a minority of dock workers received a .....
- 25 Cranes were operated manually because ..... created a risk of fire.
- 26 Observers who were unfamiliar with London's docks found the River Thames .....

## Video game research

Although video games were first developed for adults, they are no longer exclusively reserved for the grown ups in the home. In 2006, Rideout and Hamel reported that as many as 29 percent of preschool children (children between two and six years old) in the United States had played console video games, and 18 percent had played hand-held ones. Given young children's insatiable eagerness to learn, coupled with the fact that they are clearly surrounded by these media, we predict that preschoolers will both continue and increasingly begin to adopt video games for personal enjoyment. Although the majority of gaming equipment is still designed for a much older target audience, once a game system enters the household it is potentially available for all family members, including the youngest. Portable systems have done a particularly good job of penetrating the younger market.

Research in the video game market is typically done at two stages: some time close to the end of the product cycle, in order to get feedback from consumers, so that a marketing strategy can be developed; and at the very end of the product cycle to 'fix bugs' in the game. While both of those types of research are important, and may be appropriate for dealing with adult consumers, neither of them aids in designing better games, especially when it comes to designing for an audience that may have particular needs, such as preschoolers or senior citizens. Instead, exploratory and formative research has to be undertaken in order to truly understand those audiences, their abilities, their perspective, and their needs. In the spring of 2007, our preschool-game production team at Nickelodeon had a hunch that the *Nintendo DS* – with its new features, such as the microphone, small size and portability, and its relatively low price point – was a ripe gaming platform for preschoolers. There were a few games on the market at the time which had characters that appealed to the younger set, but our game producers did not think that the game mechanics or design were appropriate for preschoolers. What exactly preschoolers *could* do with the system, however, was a bit of a mystery. So we set about doing a study to answer the query: What could we expect preschoolers to be capable of in the context of hand-held game play, and how might the child development literature inform us as we proceeded with the creation of a new outlet for this age group?

Our context in this case was the United States, although the games that resulted were also released in other regions, due to the broad international reach of the characters. In order to design the best possible DS product for a preschool audience we were fully committed to the ideals of a 'user-centered approach', which assumes that users will be at least considered, but ideally consulted during the development process. After all, when it comes to introducing a new interactive product to the child market, and particularly such a young age group within it, we believe it is crucial to assess the range of physical and cognitive abilities associated with their specific developmental stage.

Revelle and Medoff (2002) review some of the basic reasons why home entertainment systems, computers, and other electronic gaming devices, are often difficult for preschoolers to use. In addition to their still developing motor skills (which make manipulating a controller with small buttons difficult), many of the major stumbling blocks are cognitive. Though preschoolers are learning to think symbolically, and understand that pictures can stand for real-life objects, the vast majority are still unable to read and write. Thus, using text-based menu selections is not viable. Mapping is yet another obstacle since preschoolers may be unable to understand that there is a direct link between how the controller is used and the activities that appear before them on screen. Though this aspect is changing, in traditional mapping systems real life movements do not usually translate into game-based activity.

Over the course of our study, we gained many insights into how preschoolers interact with various platforms, including the DS. For instance, all instructions for preschoolers need to be in voiceover, and include visual representations, and this has been one of the most difficult areas for us to negotiate with respect to game design on the DS. Because the game cartridges have very limited memory capacity, particularly in comparison to console or computer games, the ability to capture large amounts of voiceover data via sound files or visual representations of instructions becomes limited. Text instructions take up minimal memory, so they are preferable from a technological perspective. Figuring out ways to maximise sound and graphics files, while retaining the clear visual and verbal cues that we know are critical for our youngest players, is a constant give and take. Another of our findings indicated that preschoolers may use either a stylus, or their fingers, or both although they are not very accurate with either. One of the very interesting aspects of the DS is that the interface, which is designed to respond to stylus interactions, can also effectively be used with the tip of the finger. This is particularly noteworthy in the context of preschoolers for two reasons. Firstly, as they have trouble with fine motor skills and their hand-eye coordination is still in development, they are less exact with their stylus movements; and secondly, their fingers are so small that they mimic the stylus very effectively, and therefore by using their fingers they can often be more accurate in their game interactions.

---

\* a brand of hand-held electronic games

**Questions 27–40**

Questions 27–31

Do the following statements agree with the claims of the writer in Reading Passage 3?

Write

- YES** if the statement agrees with the claims of the writer  
**NO** if the statement contradicts the claims of the writer  
**NOT GIVEN** if it is impossible to say what the writer thinks about this

- 27 Video game use amongst preschool children is higher in the US than in other countries.
- 28 The proportion of preschool children using video games is likely to rise.
- 29 Parents in the US who own gaming equipment generally allow their children to play with it.
- 30 The type of research which manufacturers usually do is aimed at improving game design.
- 31 Both old and young games consumers require research which is specifically targeted.

Questions 32–36

Complete the summary using the list of words/phrases, **A–I**, below.

**Problems for preschool users of video games**

Preschool children find many electronic games difficult, because neither their motor skills nor their **32** ..... are sufficiently developed.

Certain types of control are hard for these children to manipulate:

for example, **33** ..... can be more effective than styluses.

Also, although they already have the ability to relate **34** ..... to real-world objects, preschool children are largely unable to understand the connection between their own **35** ..... and the movements they can see on the screen. Finally, very few preschool children can understand **36** .....

- |                              |                        |                           |                 |
|------------------------------|------------------------|---------------------------|-----------------|
| <b>A</b> actions             | <b>B</b> buttons       | <b>C</b> cognitive skills |                 |
| <b>D</b> concentration       | <b>E</b> fingers       | <b>F</b> pictures         | <b>G</b> sounds |
| <b>H</b> spoken instructions | <b>I</b> written menus |                           |                 |

Questions 37–40

Choose the correct letter, **A**, **B**, **C** or **D**.

- 37** In 2007, what conclusion did games producers at Nickelodeon come to?
- A** The preschool market was unlikely to be sufficiently profitable.
  - B** One of their hardware products would probably be suitable for preschoolers.
  - C** Games produced by rival companies were completely inappropriate for preschoolers.
  - D** They should put their ideas for new games for preschoolers into practice.
- 38** The study carried out by Nickelodeon
- A** was based on children living in various parts of the world.
  - B** focused on the kinds of game content which interests preschoolers.
  - C** investigated the specific characteristics of the target market.
  - D** led to products which appealed mainly to the US consumers.
- 39** Which problem do the writers highlight concerning games instructions for young children?
- A** Spoken instructions take up a lot of the available memory.
  - B** Written instructions have to be expressed very simply.
  - C** The children do not follow instructions consistently.
  - D** The video images distract attention from the instructions.
- 40** Which is the best title for Reading Passage 3?
- A** An overview of video games software for the preschool market
  - B** Researching and designing video games for preschool children
  - C** The effects of video games on the behaviour of young children
  - D** Assessing the impact of video games on educational achievement

## Writing module (1 hour)

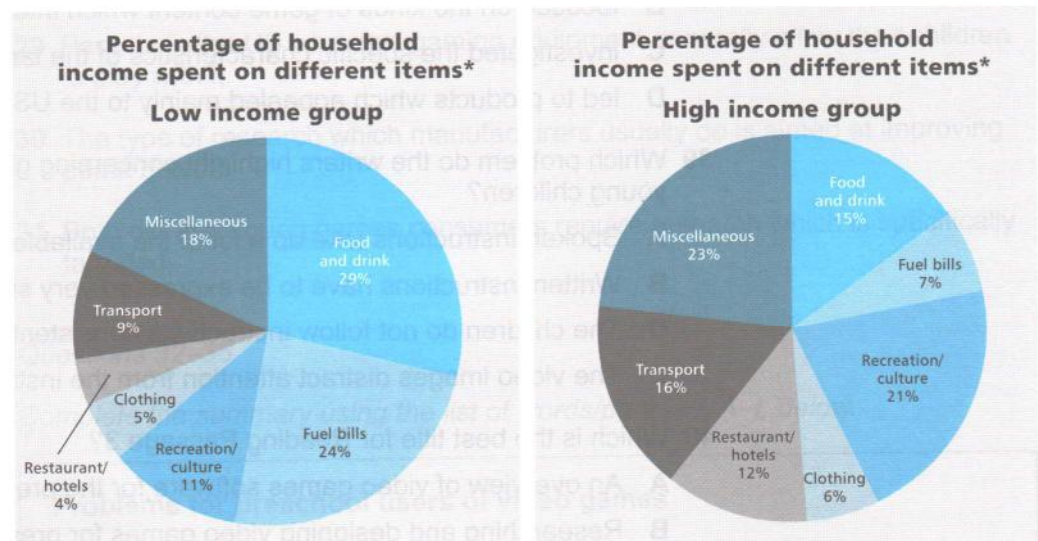

### WRITING TASK 1

You should spend about 20 minutes on this task.

The charts below show the percentage of monthly household income spent on various items by two different groups in one European country.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

\* Earnings excluding house rent/purchase

### WRITING TASK 2

You should spend about 40 minutes on this task.

Write about the following topic:

**Modern technology has made it easier for individuals to download copyrighted music and books from the internet for no charge.**

**To what extent is this a positive or a negative development?**

Give reasons for your answer, and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

## Speaking module (11–14 minutes)

### PART 1

Answer these questions.

#### **Let's talk about your country.**

*What is the area where you live like?*

*Have you always lived in the same part of the country? Why/Why not?*

*Do many visitors travel to your country?*

*What do visitors to your country like to see and do?*

#### **Now let's talk about food.**

*What is your favourite type of food? Why?*

*Do you prefer eating at home or in a restaurant? Why/Why not?*

*When was the first time you cooked something yourself? What?*

*How happy are you to try eating new things? Why?*

### PART 2

You have one minute to make notes on the following topic. Then you have up to two minutes to talk about it.

Describe a present that someone gave you which you liked a lot.

You should say:

what the present was

who gave it to you

why the person gave you a present

and explain why you liked that present a lot.

*Were you surprised to receive that present?*

*Do you still have that present?*

### PART 3

Consider these questions and then answer them.

#### **Now let's talk about giving presents in your country.**

*On which occasions do people in your country usually give presents?*

*How important is it to wrap presents in an attractive way? Why/Why not?*

*Do people who receive a present usually open it straight away, or do they open it later? Why/Why not?*

#### **Now let's talk about official charities (e.g. Oxfam, UNICEF).**

*How important is it for people to support and give aid to charities? Why/Why not?*

*What do you think the role of official charities should be?*

*Why can charities sometimes help people more effectively than government organisations can?*
